

# AMSAAN WEB WIDGET

## ABOUT US

Gulf People of Determination Information Technologies is dedicated to creating inclusive solutions for individuals with disabilities.

Our focus is on developing technology that empowers and supports the deaf community.

Through our initiatives, we aim to bridge the communication gap and provide equal opportunities for all individuals.

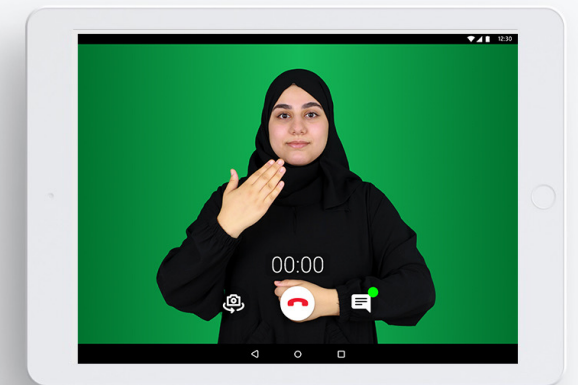

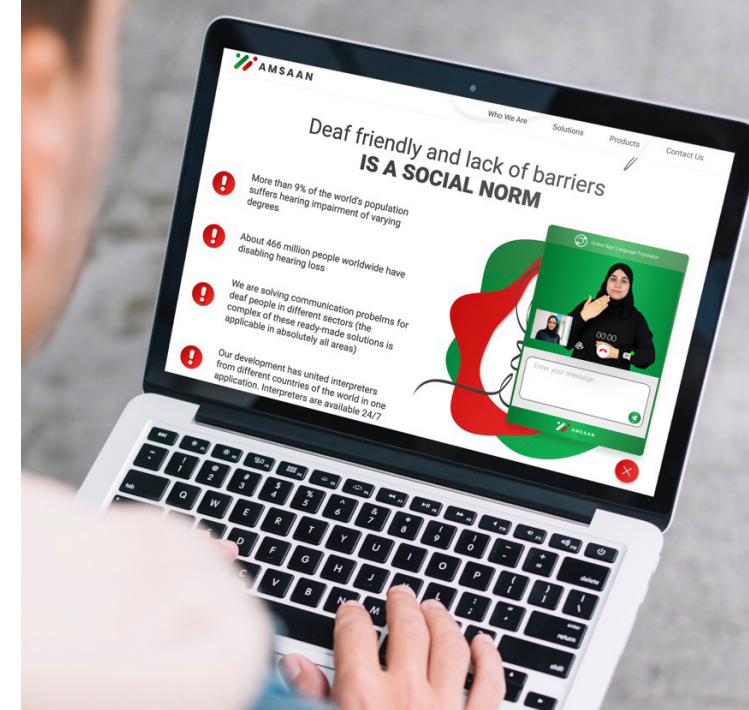

## SOLUTION

# NETWORK FOR RELAY SERVICES

We specialize in installing specialized and licensed solutions.

Our services include qualified Interpreters for remote online translation from/into sign language.

These relay services create an inclusive world for Deaf Individuals.

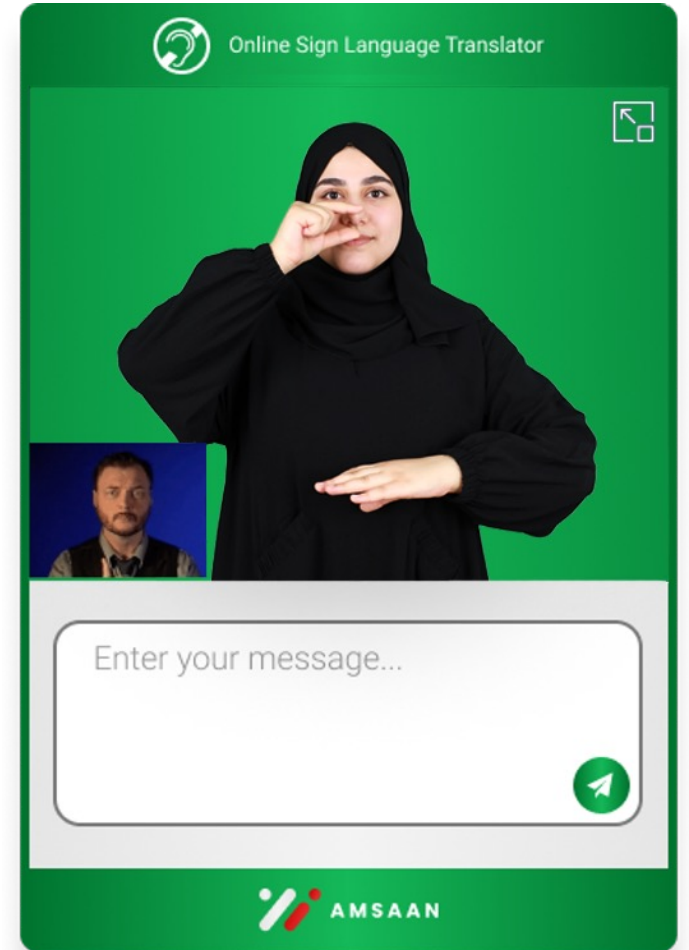

## WHAT IS A WEB WIDGET?

Web widgets enhance accessibility on host web pages.  
AMSAAN Web Widget promotes accessibility for the deaf community.

It seamlessly integrates into websites, improving communication.  
AMSAAN Web Widget is user-friendly and customizable.

Effective communication between deaf and hearing individuals is facilitated.

The widget eliminates the need for intermediaries and communication barriers.

## DIGITAL SOLUTIONS FOR DEAF

### HOW IT WORKS

The AMSAAN Web Widget is compatible with different websites, including hotels, universities, hospitals, and government entities.

Businesses can install web widgets to make their websites accessible to deaf users.

The web widget is integrated seamlessly into the website, appearing like a chat box.

Deaf users can simply click on the web widget to connect with a sign language interpreter, initiating a real-time conversation.
